

The following changes were released to the live system on October 19, 2017. Please review the release notes below carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Announcements	Issue	DEV-1794	Addressed an issue with voice messages being cut when they reach the voice mail of the resident. This issue occurred in certain situations where the voice mail greeting of the end user is long and the system wouldn't properly detect the end of the message.
	Improvement	PR-668	Added the ability to send voice and text messages using a local number assigned to the workspace. Previously residents from USA workspaces would receive messages from CCC Toronto phone number. With the introduction of Local phone number sending option, users will receive text or voice messages from phone numbers that are specific to their region.
Amenity Booking	Issue	DEV- 1762	Addressed an issue with Amenity booking create page. A new validation has been added to the create page when booking is created for "New resident not in the system". Users will now need to select the phone type and enter a valid phone number in order to proceed further.
	Issue	DEV- 1763	Addressed an issue with Amenity booking automatic confirmation setting. This issue occurred for bookings done on behalf of a resident by the staff. Earlier bookings would require extra confirmation steps when staff booked on behalf of the resident. Now the bookings will be automatically approved.
Condo Manager	Issue	DEV- 1785	Addressed an issue with CCC - Condo Manager Sync for 2nd owner's phone number in a unit. This issue impacted few users where the phone number of the 2nd owner in the unit would be replaced by the phone number of the 1st owner. This issue is now resolved.
Electronic Consent for legal documents	Issue	DEV-1791	Addressed an issue with Electronic consent email sending option on the setup page. When administrators sent bulk emails to residents requesting consent for electronic delivery of legal documents, emails were sent to users who already consented. This issue is now resolved. Only users who haven't consented will receive the email.
	Issue	DEV-1807	Addressed an issue with Electronic consent email sending option on the setup page. When administrators sent bulk emails to residents requesting consent for electronic delivery of legal document, Emails were sent to users who were also deactivated. This issue is now resolved.
Discussion Forum & Classified Ads	Issue	PR-697	Discussion forum and classified ads features have been updated based on the feedback we have received from various users. As part of the overhaul, we have updated the user interface and also introduced features like Pin a post, improved "reply to a post" functionality and "quote a post". Administrators now have the ability to add Terms and conditions on the discussion forum and classified ads "create new" page. We have also added the option to have an introductory text functionality similar to service request introduction message. Minor updates have been made to moderation emails approval process.

Related Feature	Change Type	Ref #	Release Notes
Proxy	Issue	DEV-1793	Addressed an issue with Proxy introduction email not being sent to certain users. This issue occurred when the scheduled initial email was not sent to some users and instead the reminder emails were sent. This issue is now resolved.
Security and Concierge	Issue	DEV-1643	Addressed an issue with incident update email showing the "Creator" of the incident report as the last updated person.
	Issue	DEV -1750	Addressed an issue with Key checkout > View complete keylist page. This issue occurred for a few users within a workspace where the list of keys in the workspace was long, this lead to slow page load.
	Improvement	PR-679	Added the ability to track Visitor Type on the visitor parking page. We have received requests from multiple users to introduce the visitor type tracking. By Default, users will be able to select Visitor or Contractors. Administrators can also add new visitor types on the setup page > Security and Concierge > Visitor Parking > Visitor Type.
Status Certificate	Improvement	PR-695	Added the ability to have multiple delivery options with different price options during the status certificate order process. Administrators can reach our support team to add new delivery options for the status certificate feature.
Unit File	Issue	DEV-1790	Added the ability to track Lease Amount on CCC. Now administrators can add lease amount details into the system by clicking on the Unit file > Unit > Lease details > Add lease amount. Reporting for lease details has also been updated to track lease amount.
