

The following changes were released to the live system on June 3, 2014. Please review the below release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
Amenity Booking			
	Bug Fix	DEV-675	We have added additional options for the minimum cancellation lead times for amenities. You can now choose a lead time of 72 or 96 hours in advance.
	Bug Fix	DEV-681	When viewing an amenity booking's details, you now see which workspace the requestor belongs to. This is particularly useful for customers that have multiple workspaces but share amenity bookings between them.
	Bug Fix	DEV-696	Added a label to the date box for new amenity bookings to make it more clear for end users.
Announcements			
	Customer Request	DEV-660	This change affects the page shown when you click the view announcement link in email notifications received for new announcements. The page has been reformatted, and should now feature attached files more prominently.
Look & Feel			
	Bug Fix	DEV-673	If you tried to print one of our branded pages, the background image would show-up in the print out. This has been removed, so printing pages should now work as expected.
	Improvement	DEV-706	Fixed the scroll-wheel action for certain system pop-ups. You are now only able to scroll through the content of pop-ups and not the page behind the pop-up.
Public Website			
	Improvement	DEV-707	Removed the '>' from the login link on public websites.
Reports			
	Bug Fix	DEV-686	Fixed an issue with the Visitor Parking Permits report that would cause it to print the columns on multiple pages.
Security & Concierge			
	Bug Fix	DEV-676	There were previously three horizontal lines that would show up in front of pop-ups in the Security & Concierge Console. This has been fixed.
	Bug Fix	DEV-687	The "Vehicle Owner" field previously appeared at the beginning and end of the form. This has been fixed so that it only appears once.

June 3, 2014 Release Notes

The following changes were released to the live system on June 3, 2014. Please review the below release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at contact@condocontrolcentral.com.

Related Feature	Change Type	Ref #	Release Notes
	Bug Fix	DEV-695	When adding a new visitor record, the system will now display all available phone numbers for the unit when you click "View Details".
	Bug Fix	DEV-705	Fixed an issue that was caused when you have multiple tabs open and create a new security shift in one of them. You can now properly update your shift in any tabs that you may have open.
	Bug Fix	DEV-708	Fixed an issue in Google Chrome that would prevent security users from selecting a starting time for their shift.
Service Requests			
	Customer Request	DEV-653	Minor changes to the look and feel of the new service request form.
	Customer Request	DEV-697	The subject line for Service Request notifications has been modified to lead with the related unit number before the request's other details.
Unit File			
	Bug Fix	DEV-694	Revised unit authorizations to better match customer expectations. Deactivated/expired authorizations no longer show up. When move in/out is processed, old authorizations are removed.
	Bug Fix	DEV-698	You should now be able to properly search the Unit File by entering a parking space number in the search box.
	Improvement	DEV-597	The system will now check if the email address you enter when creating or updating account is a valid email address. NOTE: this only checks if the email address is valid, not if it is currently in use.
Welcome Page			
	Bug Fix	DEV-709	Fixed an issue where users would get locked out if they made a mistake typing in their email address when setting up their account.
