

**July 2, 2014 Release Notes**

The following changes were released to the live system on July 2, 2014. Please review the below release notes carefully as some changes impact the way the system works. If you have any questions or need clarification on any of the changes, please contact support at 416-961-7884, option 2, or email us at [contact@condocontrolcentral.com](mailto:contact@condocontrolcentral.com).

| <b>Related Feature</b>          | <b>Change Type</b> | <b>Ref #</b> | <b>Release Notes</b>   |
|---------------------------------|--------------------|--------------|--|
| <b>Amenity Booking</b>          |                    |              |  |
|                                 | Bug Fix            | DEV-671      | The amenity booking calendar will now display which building the requester belongs too if you have multiple workspaces.  |
|                                 | Bug Fix            | DEV-722      | Fixed an issue that would prevent you for revising a booking's date/time.  |
|                                 | Improvement        | DEV-551      | We implemented a change to enable administrators to prevent offsite owners from booking amenities.   |
|                                 | Improvement        | DEV-704      | Added further customization capabilities to the payment details screen.  |
| <b>Look &amp; Feel</b>          |                    |              |  |
|                                 | Improvement        | DEV-717      | Fixed scrolling for pop-ups in amenity booking and group permissions.  |
|                                 | Improvement        | DEV-732      | Removed old, placeholder text from the French version of the system.   |
| <b>Overall System</b>           |                    |              |  |
|                                 | Bug Fix            | DEV-733      | Implemented changes to address the new Canadian Anti-Spam Legislation. Emails sent by the system should now include an "unsubscribe" link, and we made several changes on the back-end to ensure we are compliant. |
|                                 | New Feature        | DEV-714      | Added a new feature that allows users to submit ideas for future updates. This is accessed by either selecting "Feedback Forums" from the top drop-down or by selecting the light bulb at the bottom right corner. |
| <b>Security &amp; Concierge</b> |                    |              |  |
|                                 | Bug Fix            | DEV-685      | Fixed an issue where parking permits were not being automatically downloaded when a visitor record was saved.  |
|                                 | Bug Fix            | DEV-723      | Fixed an issue that would prevent pop-ups in the security console from opening properly.   |
|                                 | Bug Fix            | DEV-728      | Added captions to the security icons to make it easier to understand what they represent.  |
|                                 | Bug Fix            | DEV-730      | Fixed an issue with the time picker for new shifts in the security module for Internet Explorer 11.  |
|                                 | Customer Request   | DEV-665      | Added a new feature to the Security Console that allows guards to create a pass-on log to send to their team members.  |
|                                 | Improvement        | DEV-715      | Added two additional options to the default list of Incident Report types.   |
| <b>Task Tracking</b>            |                    |              |  |
|                                 | Bug Fix            | DEV-702      | Fixed an issue where Task Tracking was still accessible even if it wasn't activated for the workspace.   |
