Related Feature	Change Type	Ref #	Release Notes
Amenity Booking			
	Issue	DEV-1489	Addressed an issue with amenity booking requestor and approver comment. This issue occurred in certain situations, when the user updated the approver comments and the requester comment were effected.
	Issue	DEV-1301	Added the ability to make the event details section mandatory for an amenity. Administrators will now have the option to make the field required for the residents. During the amenity booking process, residents will have to add the details about their booking in order to <u>continue with the booking</u> .
	Issue	DEV-1499	Addressed an issue with updating credit card booking option. This issue occurred in certain situations when the user tried updating their credit card numbers after the booking was confirmed.
	Issue	DEV-1503	Addressed an issue with tax information on booking details for workspaces out of Ontario. This issue occurred in certain situations where the amount shown was correct but the text on the screen showed the wrong province.
	Improvement	PR-191	Administrators will now have the option to turn on an email permission setting for cancelled bookings. When an amenity is cancelled by the resident, administrators will have the option to receive a notification about the cancelled booking. In order to turn on the setting, select welcome(Right hand side option) > Click on "Email preferences >Change email preferences > Select "Email me when an amenity booking is cancelled".
Reporting			
	Improvement	PR- 389	Added the ability to generate "Security shift detailed" report. Administrators can now generate a detailed report about the security logs of the guards. Report will allow the administrators to filter the findings by Security guard, Start and end dates. To run the report, click on reports option on the lefthand side menu and select "Security shift - Detailed" report.
	Improvement	DEV-1290	Added the ability to generate "Survey report". Administrators can now generate a report on Survey results for individual responses to survey questions. To run the report, click on reports option on the left hand side menu and select "Survey" report.
	Improvement	PR-506	Added the ability to track un-subscribed report status by Blocked, spam, bounce and unsubscribed status.
Status certificate			
	Improvement	DEV-1246	Added the ability to process status certificate requests through Stripe. We will be switching from our current "Chase" payment system to "Stripe" payment processing. Contact Support to set up the status certificate module for your workspace.
Service Request			
	Improvement	DEV-1343	Added the ability to attach ".wav" files to service requests.

Related Feature	Change Type	Ref #	Release Notes
Security & Concierge			
	Issue	DEV-1424	Added the ability for the administrators to update or edit the package courier list. To access the setup section for package courier list, click on Setup> Security and Concierge > Package settings > Package Courier Type Options. Under the option to add new couriers, user can add, delete and edit courier information that will be visible to the security on the "Package create page".
	Improvement	DEV -1476	Added the ability to make Storage spot for packages mandatory. Administrators can enable this feature by clicking on Setup> Security & Concierge> Package Settings> Make storage spot Mandatory. Upon changing the settings for packages, Administrators can also add storage spot/location for the workspace. This will enable easy tracking of the package and also the resident will be notified about the storage spot through email/text or voice.
	Improvement	PR-548	Added the ability to send welcome letters through emails. This will allow the administrators to send welcome letters through email to residents with a valid email address.
Survey			
	Improvement	PR-396	Added the ability to extend, delete and reopen a survey. Administrators with the permission setting > Can administer survey, will now have the option to extend, delete or reopen a survey.
Unit File			
	Issue	PR-568	Addressed an issue with Unit file search. This issue occurred in certain situations where the administrators were still using our old search process for unit and user search.
	Issue	DEV 1507	Addressed an issue with Process unit ownership change. This issue occurred in certain situations where the administrators account timed out due to inactivity.
	Improvement	PR-173	Added the ability to track Lease details for the unit and the user. Administrators can now add lease information for the unit by clicking on the Unit file> Unit> Lease details. Report can also be generated for the lease end date under the reporting feature.
